

Research Methodology and Seminar

Step 2:
primary and secondary research

Dr. Arash Habibi Lashkari

(Ph.D. of Computer Science)

Issued date: Aug / 2009

Last update: Jan / 2014

Outlines:

Determine a topic

- How can find an area
- Common structure of resources (paper or thesis)
- Where can find related resources (papers, articles)
- How to summaries a reference
- list of key words
- How can find the best topic(s)

Step 1:

Determine your research topic

Select a research area...

Choose a topic that interests you:

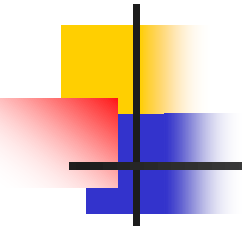

- Do you have a strong opinion on a current social or political controversy?
- Did you read a newspaper, or see a TV broadcast recently that you liked it?
- Do you have a personal issue, problem, or interest you'd like to know more about?
- Do you have a research paper due in a class this semester?
- Is there an aspect of one of your courses you are interested in learning more about?
- Do you like your lecturer?
- ...

Methodology:

Next Session

Step 3: Determine your scope and time line

*"There is no way to get
experience except
through experience."*
